

# We'll Make This Simple For You!

Sell gutter cover to your customers and make it right on your job site.

**NEW!**

Trim-A-Gutter™ Shown on Mark II TrimMaster® using UniMount Kit (sold separately).

## Trim-A-Gutter™

- Form profitable custom gutter cover right on your brake.
- Tool designed for use with special hangers & anchors (sold separately).
- The fastest, most inexpensive way to get in on this business.
- Match gutter colors more precisely for seamless integration.
- No franchise or license fees. Do it all yourself.

UniMount™ Kit lets you place Trim-A-Gutter™ on your Van Mark brake, or mount independently using optional UniLeg™ supports (sold separately)

## The Ultimate ADD-ON For Your Van Mark Brake!

As rainwater collects and cascades over the gutter-cover, a natural surface tension is created causing the rainwater to follow the contours of the gutter-cover. Once gravity takes over, the rainwater has cleared the gutter edge and falls into the gutter trough. Leaves and other debris are unable to make the transition, falling harmlessly to the ground.

Trim-A-Gutter™ is the only patent pending design on the market today built portable for "on site" use with your brake. Go from a 3-12 to a 12-12 pitch job with confidence knowing Trim-A-Gutter™ can handle just about any gutter/fascia profile you'll run into. Become an authorized Trim-A-Gutter™ Installer without the huge franchise fees associated with other gutter-covers.

Extruded alum. brackets specially designed for Trim-A-Gutter™

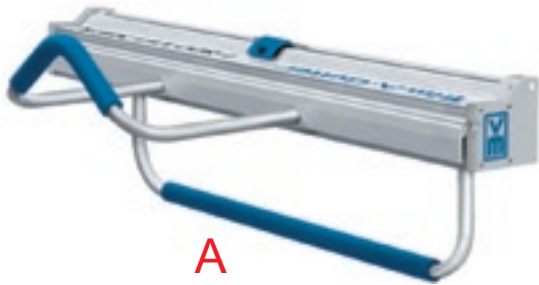

COPPER•TRIM COIL•GUTTER COIL Heavy-duty gutter hangers and anchors provide superior support for all your gutter/gutter-cover mounting needs.

U.S. and Foreign Patents Pending

# ONLY ONE GUTTER-COVER SYSTEM GIVES YOU COMPLETE CONTROL, JOB TO JOB!

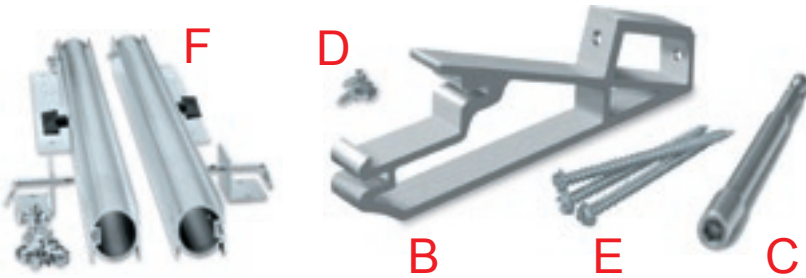

Along with the best customer service in the business, count on Van Mark to introduce new ways for you to make money on your job site while providing a great new product to your customers.

As the gutter-cover industry expands more and more each day, so will your ability to adapt and grow your products and services as well.
