

Four-Season Protection™ - Limited Lifetime Warranty

Euramax Canada, Inc. (the Manufacturer) warrants to the original owner at the time of installation, that its vinyl railing and vinyl gutter product (the Product) will be free from manufacturing defects, while subject to normal and intended use, and when installed according to instructions supplied by the Manufacturer, for the life of the original owner's interest in the property. The Product is further warranted, while subject to normal and intended use, against surface peeling, flaking, rot, corrosion not associated with chemical contact and abnormal discoloration due to weathering for the life of the original owner's interest in the property. Warranty expense is limited to replacement of material in the form originally supplied to the original owner. If the specific Product is no longer available, the Manufacturer's liability will be limited to original sales value of Product supplied, or current value, whichever is less, or to replacement with alternative Product at the Manufacturer's option. The Manufacturer does not imply warranty under circumstances not specifically stated in this warranty statement and will act in good faith on each claim or concern that is filed.

EXCLUSIONS:

The Manufacturer shall not be liable for, and this warranty does not apply to any failure, defect or damage resulting from or connected with the following:

- A) Defects not caused by the Manufacturer (for example, but not limited to: accidents, misuse, abuse, improper applications or installations contrary to industry standards or not in accordance with approved installation instructions, unauthorized modifications).
- B) Product that has been painted, sprayed with chemicals or had its surface treated.
- C) Impact of foreign objects, tornado, hurricane, other violent storms, fire, air pollutants, color modification, discontinuation of products including its color or acts of God.

Product which experiences color change due to normal weathering is excluded from this warranty (including non-uniform, fading and color changes resulting from unequal exposure of the Product to the sun and elements). For the purpose hereof, the term "normal weathering" means exposure to ultraviolet (sun) light, and extremes of temperature and atmosphere which will cause any colored or painted surface to fade, darken, chalk or acquire a surface accumulation of dirt or stains. The severity of these conditions depends on air quality, the geographic location of the property at which the Product is installed, and other local conditions over which the Manufacturer has no control.
